SCHEME OF EXAMINATION AND COURSE OF STUDY

Master of Education Examination

Effective from Session – 2015-17

Institute of Advanced Studies in Education Deemed University

Gandhi Vidya Mandir, Sardarshahr – 331401

Phone – 01564 – 220025, 223642, 223054

The taught courses will also have practicum component. Each credit in a taught course is equated to one hour of teaching or two hours of seminars/ group work/ laboratory work/ field-work/ workshop per week for 16 weeks. Thus, 4-credit course entails 4 hours of regular teaching per week or as much as 8 hours of teaching and other programme activities. While conceptualizing the credits the Choice Based Credit System (CBCS) proposed by UGC should be adopted.

Instruction for the programme :

- M.Ed. programme should have a provision for regular field visits of students across the semesters. A day in every week may be reserved for this purpose. Field visit is visualized as a space where practicum for various courses could be organized. It should provide school experience opportunities (preferably in the first semester) that have sufficient rigor to enable the student to understand school practice from a broader/holistic perspective of that informs teacher education (.i.e. it should not be repetition of the school experience in first degree in education – and should weave in the broader perspective of teacher education).
- Internship should be organized in a way that it involves engagement with teacher education institutions for all students, and field experience associated with the specialization that a student chooses.
- Since the M.Ed. programme structure proposed in this report is hinged on schools and teacher education institutions (and other sites) based activities, the M.Ed.. calendar should be developed keeping in mind the schedule of these institutions.
